Response provided under: Freedom of Information Act 2000

Request / Response

Can you please tell me the number of residential buildings the council owns that are under 11m.

776 blocks in total, 459 Fire Risk Assessments (FRA) not required, 317 where FRA's are required.

Has the council surveyed these under 11m buildings to identify any potential fire and building safety issues? (yes/no answer)

Yes. As above FRA's carried out on cyclical programme.

If the answer is yes, can you provide the total number of buildings where an issue has been found.

We would require more specific information on what is an 'issue' to be able to answer this question accurately. However no significant fire safety issues are present in our housing stock.

Of the buildings that have fire and building safety issues, can you please then provide the total number where remediation work has started?

None.
